INDEPENDENT AUDITORS' REVIEW REPORT

The Board of Directors and Shareholders
Shuttle Inc.

Introduction

We have reviewed the accompanying consolidated balance sheets of Shuttle Inc. (the "Company") and its subsidiaries (collectively referred to as the "Group") as of June 30, 2026 and 2025, the related consolidated statements of comprehensive income for the three months ended June 30, 2026 and 2025 and for the six months ended June 30, 2026 and 2025, the consolidated statements of changes in equity and cash flows for the six months then ended, and the related notes to the consolidated financial statements, including material accounting policy information (collectively referred to as the "consolidated financial statements"). Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the following paragraph, we conducted our reviews in accordance with the Standards on Review Engagements of the Republic of China 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As disclosed in Notes 12 and 13 to the consolidated financial statements, the financial statements of some non-significant subsidiaries and investments accounted for using the equity method were not reviewed. As of June 30, 2026 and 2025, combined total assets of these non-significant subsidiaries were NT\$363,037 thousand and NT\$144,321 thousand, respectively, representing 7.93% and 3.37%, respectively, of the consolidated total assets, and combined total liabilities of these subsidiaries were NT\$21,039 thousand and NT\$32,861 thousand, respectively, representing 2.05% and 4.70%, respectively, of the consolidated total liabilities; for the three months ended June 30, 2026 and 2025 and for the six months ended June 30, 2026 and 2025, the amounts of the combined comprehensive income of these subsidiaries were NT\$5,860 thousand, NT\$(3,335) thousand, NT\$(3,524) thousand and NT\$(3,793) thousand, respectively, representing 60.90%, 2.78%, 37.27% and 3.63%, respectively, of the consolidated total comprehensive income. As of June 30, 2026 and 2025, the investments accounted for using the equity method were NT\$38,338 thousand and NT\$33,685 thousand respectively; for the three months ended June 30, 2026 and 2025 and for the six months ended June 30, 2026 and 2025, the share of loss from joint ventures recognized under the equity method were NT\$(20) thousand, NT\$(12) thousand, NT\$(61) thousand and NT\$(71) thousand, respectively.

Qualified Conclusion

Based on our reviews, except for adjustments, if any, as might have been determined to be necessary had the financial statements of the some non-significant subsidiaries and Investments accounted for using the equity method as described in the preceding paragraph been reviewed, nothing has come to our attention that caused us to believe that the accompanying consolidated financial statements do not give a true and fair view of the consolidated financial position of the Group as of June 30, 2026 and 2025, and of its consolidated financial performance and its consolidated cash flows for the three months ended June 30, 2026 and 2025 and for the six months ended June 30, 2026 and 2025 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Accounting Standard 34 “Interim Financial Reporting” endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the reviews resulting in this independent auditors’ review report are I-Chi Chien and Chia-Ming Chang.

The Company is engaged in manufacturing and selling barebones, mainboards, medical devices, and other computer and medical device peripherals, as well as providing related technical services. The Company’s shares were listed and traded on the Taipei Exchange (TPEx) Mainboard from December 8, 1998 until the shares became listed and traded on the Taiwan Stock Exchange (TWSE) starting on March 17, 2000.

The consolidated financial statements are presented in the Company’s functional currency, New Taiwan dollars.

2. APPROVAL OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements were approved by the Company’s board of directors on August 3, 2026.

- a. Initial application of the amendments to the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the “IFRS Accounting Standards”) endorsed and issued into effect by the FSC

The initial application of the amendments to the IFRS Accounting Standards endorsed and issued into effect by the FSC did not have material impact on the Group’s accounting policies.

- b. The IFRS Accounting Standards endorsed by the FSC for application starting from 2027

New, Amended and Revised Standards and Interpretations	Effective Date Announced by IASB
IFRS 18 “Presentation and Disclosure in Financial Statements”	January 1, 2027 (Note 1)
IFRS 19 “Subsidiaries without Public Accountability: Disclosures” (including the 2025 amendments to IFRS 19)	January 1, 2027
Amendments to IAS 21 “Translation to a Hyperinflationary Presentation Currency”	January 1, 2027

Note 1: IFRS 18 will take effect starting from January 1, 2028 for domestic entities. Earlier application is permitted.

Note 2: An entity shall apply the amendments when it applies IFRS 18.

IFRS 18 “Presentation and Disclosure in Financial Statements” and consequential amendments and Amendments to IAS 28 “Amendments to the Fair Value Option for Investments in Associates and Joint Ventures”

IFRS 18 will supersede IAS 1 “Presentation of Financial Statements”. The main changes comprise:

- To classify items of income and expenses presented in the statement of profit or loss into the operating, investing, financing, income taxes and discontinued operations categories, the Group shall assess whether it has specified main business activities of investing in particular types of assets and providing financing to customers.
- The statement of profit or loss shall present totals and subtotals for operating profit or loss, profit or loss before financing and income taxes and profit or loss.
- Provides guidance to enhance the requirements of aggregation and disaggregation: The Group shall identify the assets, liabilities, equity, income, expenses and cash flows that arise from individual transactions or other events and shall classify and aggregate them into groups based on shared characteristics, so as to result in the presentation in the primary financial statements of line items that have at least one similar characteristic. The Group shall disaggregate items with dissimilar characteristics in the primary financial statements and in the notes. The Group labels items as “other” only if it cannot find a more informative label.
- Disclosures on Management-defined Performance Measures (MPMs): When in public communications outside financial statements and communicating to users of financial statements management’s view of an aspect of the financial performance of the Group as a whole, the Group shall disclose related information about its MPMs in a single note to the financial statements, including the description of such measures, calculations, reconciliations to the subtotal or total specified by IFRS Accounting Standards and the income tax and non-controlling interests effects of related reconciliation items.

At the date of initial application of IFRS 18, an entity that is a venture capital organization, mutual fund, unit trust or similar entity is permitted to change its election from measuring an investment in an associate or joint venture from the equity method to fair value through profit or loss. The amendments to IAS 28 clarify that aforementioned “similar entity” includes the entity that performs the assessments in accordance with the requirements of IFRS 18 and concludes that it has a main business activity of investing in particular types of assets. If eligible, the Group may apply the transition upon initial application.

In addition, the following consequential amendments have been made to IAS 7 “Statement of Cash Flows”:

- The Group shall use operating profit or loss as the starting point when presenting cash flows from operating activities under the indirect method.
- Interest and dividends received by the Group shall be classified as investing activities, while interest and dividends paid shall be classified as financing activities. However, if, after assessment, the Group has a specific main operating activity, it shall determine how to classify dividends received, interest received and interest paid in the statement of cash flows by referring to how it classifies dividend income, interest income and interest expense in the statement of profit or loss. The total of each of these cash flows shall be classified in a single category in the statement of cash flows.

The Group has decided not to apply IFRS 18 and consequential amendments earlier.

Except for the above impact, as of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the possible impact of the application of the amendments on the Group's financial position and financial performance and will disclose the relevant impact when the assessment is completed.

4. SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION

- a. Statement of compliance

These interim consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 "Interim Financial Reporting" as endorsed and issued into effect by the FSC. Disclosure information included in these interim consolidated financial statements is less than the disclosure information required in a complete set of annual consolidated financial statements.

- b. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis, except for financial instruments that are measured at fair values.

The fair value measurements are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for assets or liabilities, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs are unobservable inputs for assets or liabilities.

c. Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (i.e., its subsidiaries).

Income and expenses of subsidiaries acquired or disposed of during the period are included in the consolidated statement of comprehensive income from the effective dates of acquisitions up to the effective dates of disposals, as appropriate.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation. Total comprehensive income of subsidiaries is attributed to the owners of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the interests of the Group and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognized in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and any investment retained in the former subsidiary at its fair value at the date when control is lost and (ii) the assets (including any goodwill) and liabilities and any non-controlling interests of the former subsidiary at their carrying amounts at the date when control is lost. The Group accounts for all amounts recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required had the Group directly disposed of the related assets or liabilities.

See Note 12, Tables 4 and 5 for the detailed information of subsidiaries (including the percentage of ownership and main business).

d. Other material accounting policies

Except for the following, please refer to the consolidated financial statements for the year ended December 31, 2025.

Income tax expense

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

5. MATERIAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The same material accounting judgments and key sources of estimation uncertainty of consolidated financial statements have been followed in these consolidated financial statements as those applied in the preparation of the consolidated financial statements for the year ended December 31, 2025.

Other receivables	<u>\$ 5,544</u>	<u>\$ 5,733</u>	<u>\$ 4,113</u>

a. Trade receivables

The average credit terms range from 90 to 120 days. No interest was charged on trade receivables. The Group adopted a policy of rating its major customers by using other public financial information or its own trading records and obtaining sufficient collateral or insurance, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit ratings of its counterparties are continuously monitored, and the aggregate value of transactions concluded is spread amongst approved counterparties.

The Group measures the loss allowance for trade receivables at an amount equal to lifetime ECLs. The expected credit losses on trade receivables are estimated using a provision matrix prepared by reference to the past default experience of the customer, the customer's current financial position, insurance coverage, as well as economic condition of the industry in which the customer operates, and industry outlook. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Group's different customer base.

The Group writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation. For trade receivables that have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The following tables detail the loss allowance of trade receivables based on the Group's provision matrix.

c. Retained earnings and dividends policy

Under the dividends policy as set forth in the Company's Articles of Incorporation (the "Articles"), where the Company made an earnings distribution or offsetting for deficits after the end of the half-year period in a fiscal year, the profit shall be first utilized for paying taxes and employees' compensation, offsetting losses of previous years, setting aside as legal reserve 10% of the remaining profit, setting aside or reversing a special reserve in accordance with the laws and regulations, and then any remaining profit together with any undistributed retained earnings shall be used by the Company's board of directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for the distribution of dividends and bonuses to shareholders. The partial or full distribution of dividends and bonuses by way of cash is authorized to be approved by the Company's board of directors and reported in the shareholder's meeting. For the policies on the distribution of compensation of employees and remuneration of directors, refer to compensation of employees and remuneration of directors in Note 22(g).

3) Valuation techniques and inputs applied for Level 2 fair value measurement

Financial Instruments	Valuation Techniques and Inputs
Derivatives - foreign exchange forward contracts	Discounted cash flow method: Future cash flows are estimated based on observable forward exchange rates at the end of the reporting period and contract forward rates, discounted at a rate that reflects the credit risk of various counterparties.
Privately placed stocks of domestic listed companies	The fair value is calculated based on the observable stock prices and the liquidity discount at the end of the reporting period. The liquidity discount was 10% as of June 30, 2026, December 31, 2025 and June 30, 2025.

4) Valuation techniques and inputs applied for Level 3 fair value measurement

The fair values of domestic and foreign unlisted equity securities were determined using asset approach and income approach. In this approach, the net asset value of each share is evaluated by reference to financial information of the Company, observable information of market prices, and by considering liquidity discounts, 20%-30% as of the six months ended June 30, 2026, December 31, 2025 and June 30, 2025. The lower the liquidity discount is, the higher the fair value of the investments.

d. Financial risk management objectives and policies

The major financial instruments of the Group include trade receivables, accounts payable and short-term borrowings. The Group's finance department provides services to the business units, coordinates access to domestic and international financial markets, and monitors and manages the financial risks relating to the operations of the Group through internal risk reports that analyze exposures by degree and magnitude of risks. These risks include market risk (including foreign currency risk and interest rate risk), credit risk, and liquidity risk.

1) Market risk

The Group's activities exposed it primarily to the market risks of changes in foreign currency exchange rates and interest rates.

There has been no change to the Group's exposure to market risks or the manner in which these risks are managed and measured. Sensitivity analysis is an estimate of the influence of the reasonably possible range of the interest rate and currency fluctuation in a year. Sensitivity analysis of interest rate and currency fluctuation was as follows:

a) Foreign currency risk

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities (including the foreign currency denominated monetary assets and monetary liabilities that were eliminated upon consolidation) at the end of the reporting period are set out in Note 31.

Sensitivity analysis

The Group is mainly affected by the fluctuations of the U.S. dollar, Japanese yen, Euro and Great British Pound.

The table below is the analysis of the sensitivity of the Group's foreign currencies to a 5% increase or decrease in the relevant currency rate on the balance sheet date. The 5% sensitivity rate is the currency risk factor used in the internal report to management; it is the rate that management believes represents the reasonably possible range of the currency fluctuation. The sensitivity analysis included only outstanding foreign-currency denominated monetary items and assumed their translation at the end of the reporting period for a 5% change in foreign currency rates.

The table below shows the amount of change in income before tax when the Group's foreign currencies increase by 5% against the relevant currency. When the Group's foreign increases fall 5% against the relevant currency, the impact on income before tax is the negative number of the same amount.

	<u>U.S. Dollar</u>		<u>Japanese Yen</u>		<u>Euro</u>		<u>Pound Sterling</u>	
	<u>For the Six Months Ended</u>		<u>For the Six Months Ended</u>		<u>For the Six Months Ended</u>		<u>For the Six Months Ended</u>	
	<u>June 30</u>		<u>June 30</u>		<u>June 30</u>		<u>June 30</u>	
	2026	2025	2026	2025	2026	2025	2026	2025
Profit or loss	\$ (7,589)	\$ (9,037)	\$ (4,416)	\$ (3,432)	\$ (12,380)	\$ (9,836)	\$ (2,991)	\$ (2,051)

The above effects are mainly derived from the Group's outstanding cash in the bank, short-term loans, receivables and payables, which did not have cash flows hedged and which were valued in U.S. dollars, Japanese yen, Euros and Great British Pound on the balance sheet date.

b) Interest rate risk

The carrying amounts of the Group's exposures to interest rates on financial assets and financial liabilities are as follows:

	June 30, 2026	December 31, 2025	June 30, 2025
Fair value interest rate risk			
Financial assets	\$ 168,248	\$ 224,388	\$ 357,984
Cash flow interest rate risk			
Financial assets	470,833	665,908	533,965
Financial liabilities	321,584	131,763	51,928

Sensitivity analysis

The sensitivity analyses below have been determined the exposure to interest rates risk for non-derivative instruments at the end of the reporting period. Increase or decrease of 25-basis point is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 25 basis points higher/lower and all other variables were held constant, the Group's profit for the six months ended June 30, 2026 and 2025 would increase/decrease by \$187 thousand and \$603 thousand, respectively. This is mainly attributable to the Group's exposure to floating rates on demand deposits and short-term borrowings.

2) Credit risk

Credit risk refers to the risk that a counterparty will default on contractual obligations resulting in a financial loss to the Group. The maximum credit exposure of the aforementioned financial instruments is equal to their carrying amounts recognized in the consolidated balance sheet as of the balance sheet date.

The Group evaluates its main customers' credit rating by the use of accessible financial information and transaction records with those customers. The Group keeps an eye on credit exposure and customers' credit ratings.

The Group's credit risk is mainly focused on its main customers. As of June 30, 2026, December 31, 2025 and June 30, 2025, the percent of the Group's total receivables from its main customers were 43%, 50% and 28%, respectively.

3) Liquidity risk

The Group closely monitors operations and alleviates the effects of fluctuations in cash flows by managing and maintaining sufficient cash and cash equivalents. The management monitors the usage of the bank's financing limit and ensures that the terms of loan agreements are followed.

Bank loans are sources of liquidity for the Group. As of June 30, 2026, December 31, 2025 and June 30, 2025, the Group's unused bank financing limits were \$1,081,950 thousand, \$919,010 thousand and \$854,100 thousand, respectively.

The following tables detail the Group's remaining contractual maturities for its non-derivative financial liabilities with agreed upon repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows.
